

Four Points

Develop a position statement that expresses your opinion about the subject you have been studying. Write it in the center of the organizer below. Using information from the reading assignment, video or lecture, find four points that support your position and write one in each of the blocks around your position statement.

The diagram consists of a central rectangular box for a position statement, surrounded by four rectangular boxes for supporting points. The boxes are arranged in a cross pattern: Point 1 is at the top, Point 2 on the left, Point 3 on the right, and Point 4 at the bottom. A large, stylized arrow with four points (up, down, left, right) is centered in the middle, pointing towards each of the four point boxes.

Point 1:

Point 2:

Point 3:

Point 4:

Create a presentation to the class in which you try to persuade them to agree with your position. You can write a letter, deliver a speech, draw a poster or create a PowerPoint.
