

**Parent Resources while Working and Learning at Home - # 4**  
 Educational websites that will engage your children  
 and actually let you work for an hour (or two!)

	<p><a href="#"><u>Raz-Kids</u></a></p>	<p>Raz-Kids is an online guided reading program with interactive ebooks, downloadable books, and reading quizzes. There are over 400 interactive, leveled eBooks spanning 29 levels. It's perfect for kids K-5!</p>
	<p><a href="#"><u>63 Easy Science Experiments</u></a></p>	<p>Searching for kid-friendly science experiments? These 63 science experiments for kids are super-easy and a lot of fun to boot, as kids are exposed to a wide variety of scientific concepts. It's a great way to give yourself a bit of a break from work or "assign" the older kids at home to learn some science together.</p>
	<p><a href="#"><u>Coding Programs for Kids</u></a></p>	<p>Basic programming has become an essential skill for grown-ups and children alike. The benefits of picking up this skill, especially for kids, are huge. Learning how to build simple websites and games helps kids refine their design, logic, and problem-solving abilities. It also allows them to express ideas and creativity in unique ways.</p>
	<p><a href="#"><u>150+ Educational Shows On Netflix</u></a></p>	<p>Create a separate profile on Netflix. Name it "School" and add ONLY educational materials to this profile. A great starting point is to add "100 best Educational Shows to Stream on Netflix" list. Then when you need to keep the kids busy, allow them to watch only shows you have added to this account. It works great and keeps the kids from getting sidetracked by the show they're currently binge-watching.</p>
