What Is It: MISIC's C3 Cadre

Project is an intensive, overtime, sustained professional development experience; designed to provide participants with deep knowledge and experience in designing units of study that implement the Iowa Standards with high levels of quality and rigor. Participants will learn how to use the **Unit Planner** to make the instructional shifts necessary to equip students with the knowledge and skills for success in the 21st Century.

Whose It For:

- *Instructional, Curriculum, & PD Leaders*
- *Teacher Leaders, Teacher Coaches*
- *Building Administrators*
- *Classroom Teachers, (all grades, all contents)*

Why Is It Needed: To develop a school's internal capacity to support the implementation of the Iowa Standards by creating a team of experts within the school or district.

What Participants of Cohort 1 Are Saying:

Citing examples of the changes seen in her students, Gina, Elementary Teacher says, *"I have learned an incredible amount of new ideas and thinking...As long as I am remain in this profession I will continue to learn new things to apply but this learning has made a BIG impact."*

"Everyone in our district needs this learning experience!" Jon, K-12 Curriculum Director

My biggest gain..."Has been the identification of the shifts to standard 2.0 and how that plays a factor in how our students are learning... and what that means to parents" Jill, Elementary Principal.

ESSA Connections

*As the newly passed **Every Student Succeeds Act (ESSA)** empowers school leaders and teachers as trusted professionals to make critical classroom decisions; the mindfulness of the **Unit Planner** facilitates those critical decisions in delivering quality learning opportunities for all students.*

*Those planned learning opportunities are enhanced in the **Unit Planner** using universal design concepts mentioned in **ESSA**.*

*The **Unit Planner** supports all subjects in providing the well-rounded education envisioned by **Every Student Succeeds**.*
