

## Unplugged Activities to Engage Kids of All Ages

	<p><a href="#"><u>Scavenger Hunt Ideas</u></a></p>	<p>Scavenger hunts can be completed in teams or individually. Click on the link to find sample ones or make up your own. Hunts can take place inside or outside. Search for things by color, beginning letters, by texture, etc.. The ideas are endless. Another option is to have kids create a scavenger hunt for others.</p>
	<p><a href="#"><u>Lego Challenge</u></a></p>	<p>Kids of all ages love to be creative with Legos. This 30 day calendar gives a scenario and challenges the builder to create a solution to the problem. Ex: NASA needs a new rocket ship and hires you to build it.</p>
	<p><a href="#"><u>Reading BINGO</u></a></p>	<p>Looking to add variety to your child's reading time? Use this BINGO game board to find new and fun ways for your child to keep reading time exciting. Make a BINGO in any direction and find a way to celebrate his/her success.</p>
	<p><a href="#"><u>Chain Reaction Challenge</u></a></p>	<p>A chain reaction is a sequence of events where one thing triggers another. A simple chain reaction could be setting up dominos. A more complex chain reaction could involve several other toys or household goods. Get creative and practice, practice, practice it until it is perfect. Use this link for some ideas.</p>
	<p><a href="#"><u>Yarn "Laser" String</u></a></p>	<p>Criss-cross yarn between chairs or tape it across a narrow hallway to make an obstacle course of "lasers" for your child to try to climb through without touching any of the strings of yarn. They can climb over or under until they reach the other side. Great for large motor skills and problem-solving.</p>
