

REMOTE LEARNING MICRO- CREDENTIALS

DO YOU WANT TO GAIN NEW SKILLS IN HELPING STUDENTS LEARN REMOTELY?

MISIC's six new micro-credentials focus on Remote Learning skills and strategies:

- Making the Shift to Online Learning
- Lesson Design and Delivery
- Engaging Students in a Distant Environment
- Netiquette and Norms for Learning and Teaming Online
- Curating and Organizing Resources
- Social and Emotional Learning in a Distant Environment

These micro-credentials are directly related to your professional practice and the tasks are targeted to classroom application. Complete the micro-credentials individually or share the learning with a team. As an added benefit, you may select and complete any three of the six titles to earn a licensure renewal credit (LRC). LRC is open to everyone in Iowa for \$80/credit. Contact MISIC to register for credit.

MISIC member districts can access all of MISIC's micro-credentials and more resources by logging into the MISIC website.

MISIC will work with non-member districts to develop an agreement for the use of specific micro-credentials or to provide access to teachers.

To become a member of MISIC or to discuss how to enable your staff to unlock the power of micro-credentials for professional learning, contact Jamie at jamie@misiciowa.org.
